RE: Application no 08/418,286, Filed: 04/07/95
Applicants: Erwin Schwartz and Peter Lipert.
Title: Heat Exchanger, Art Unit: 3407

Subject: Response to your Advisory Action of 06/03 96 and our follow up phone conversation in July.

Dear Sir,

First we want to thank you for your patience with explaining to us our file.

We hereby will shorten our application and description in order to obtain a speedy patent at least on a few of our initial claims.

Please note that we are not adding any new claims or any new drawings.

Please make the following amendments.

Both inventors Erwin Schwartz and Peter Lipert have jointly and simultaneously worked on this invention and therefor commonly own all claims of this patent application.

We are hereby rewriting claims 23-42 with more clarity, and will refer to them as -R (revised).

Please note that all initial drawings and figures still apply and are not withdrawn. And disregard our letter of July 07 1996 with regard to claims.

We thank you for your attention to our application. Respectfully yours.

Erwin Schwartz /B. Eng.
